

Thank you All, for buying the album.

This was a fun project and a delightful re-discovery of the sheer joy of just playing and singing.

Many of you have asked for an album to capture the flavor of being at the club, so all the live selections were recorded there right at the piano.

All the songs on this album are classic selections, made famous by many gifted musicians and writers through the years, and they are like best friends, well-cherished, and easy on the soul.

This project is a celebration of the piano, and the voice, of music people love to sing along with, of love songs for pretty ladies and handsome gentlemen enjoying a night away from the daily grind.

This album is recommended only for people who like to have fun. Enjoy as often as desired with fine

food and beverage, or relaxing in the lounge with popcorn and good conversation.

There's even something here for our four-footed friends, listen carefully to the ending track 'smile.'

Love Springs Eternal, And God Is Good.

This album is dedicated to my lovely wife Stephie, who came all the way from her native country of New Zealand to make a life with me. Her voice is featured on the Rose. All the songs on here were performed by yours truly, either at the piano bar, or in our little home studio.

It was 79 minutes and 7 seconds of just plain having fun, and we hope you enjoy it as much as we did.

Peace and Blessing.
